GENERAL EDUCATION REQUIREMENT

Fulfilling its mission to educate, equip, and enrich students to be articulate and contributing members of a global society, Williams requires a general curriculum of arts and sciences. The Williams General Education Program is among the most substantial of its kind. A salient feature of the College's academic culture, the General Education Requirement engages students deeply, thoroughly in ideals and disciplines associated with the liberal arts tradition. Significantly, students progressing through the Williams General Education Requirement will also encounter the essential theological nexus of the College's mission interlaced throughout the various courses in the program and especially in the biblical studies component of the curriculum. Moreover, the General Education Requirement involves a conscious commitment on the College's part to ground all students in those fundamental skills of synthesis, inquiry, written and verbal communication so important for achievement in all of their postgraduate endeavors.

Solidly wedded to meaningful content, (great books, important events and individuals, influential ideas) the General Education Requirement is intended also to help students consider and embrace different *ways of knowing*--represented in the substantial course work in various disciplines. Taken together, the General Education Requirement should lead

students to a fuller appreciation of their individual and *God-given* potential and to a heightened sense of responsibility to others and to the larger world.

The General Education Requirement includes humanities, social science, history and religion, natural science, and health and physical education. The General Education Requirement is designed to be completed in the first two years of study. Students should enroll in English Composition I and English Composition II, sequentially, until they pass each course with a grade of "C" or better. Students who have not completed English Composition I and English Composition II before accumulating 60 degree hours must enroll in a composition class until the composition requirements are completed.
