Bachelor of Science in Finance

The Bachelor of Science in Finance emphasizes the relationship between economics, accounting, and financial decision-making. Finance graduates enter careers in corporate finance, investments, banking, real estate, and insurance. The finance program also promotes the development of entrepreneurial skills. Upon completion of this degree,

- Students will be able to explain the relationship between economics, accounting, and financial decision-making.
- Students will be able to create and analyze comprehensive financial statements.
- Students will be able to relate financial theories and skills to their careers and personal lives to become better financial stewards.
